

# Where can I find guidance from the Council of Europe on food contact materials such as coatings, paper and board, rubber and silicones?

You are here:

[EDQM FAQs](#) / [EDQM FAQs in English](#) / [HEALTHCARE](#) / [Food contact materials](#) / [Other food contact materials](#) / Where can I find guidance from the Council of Europe on food contact materials such as coatings, paper and board, rubber and silicones?

## Answer:

Guidance from the Council of Europe on food contact materials can be found on the [EDQM website](#). Experts in the field from national authorities and the private sector are currently contributing to a review of the existing resolutions and technical documents that were drafted under the former Council of Europe Partial Agreement in the Social and Public Health Field (dissolved on 31 December 2008).

You can find more information about substances used in food contact materials (use, toxicity, regulations where applicable) on the [food contact materials database](#) run by Sciensano, the Belgian public health institute.
