Answer:

The European Directorate for the Quality of Medicines & HealthCare (EDQM) of the Council of Europe provides standardised nomenclatures and quality standards for medicinal substances and products, which are published in the European Pharmacopoeia. If the EDQM does not have any FAQs for your topic, it may fall under the scope of another organisation.

The organisations involved in the European regulatory process are listed on the [Vision, Mission & Values](#) on our website.

If you have further questions, you contact us via the [EDQM Helpdesk](#). For information on how to use the EDQM HelpDesk, please see the [HelpDesk User Manual](#).
