

# QUALITY & SAFETY

- What is the scope of the EDQM ISO 9001 certificate?
- Is the EDQM laboratory ISO 17025 accredited?
- Does the EDQM provide safety data sheets (SDSs) for the standards it supplies?
- Why is the safety data sheet/statement (SDS) missing from the online Ph. Eur. reference standards database ?
- What is the purpose of the leaflets available to download from the online Ph. Eur. reference standards database?
- How can I make a comment regarding a leaflet?
- Does the EDQM provide the quantitative composition of Ph. Eur. reference standards?
- How can I submit my comments and/or suggestions on the SDS?
- How and where will revisions and/or modifications to SDSs be communicated?
- Does the EDQM provide certificates of analysis for Ph. Eur. reference standards?
- Does the EDQM pre-register, register or apply for authorisation for its substances and preparations in accordance with Regulation (EC) No 1907/2006 (REACH)?
- What is the EDQM's position on hazardous substances?
- Can the EDQM provide the registration number of a CRS or BRP?
- How can I submit my comments and/or suggestions to improve the quality of your service?
- My question about the EDQM's Quality & Safety Management Systems is not in the FAQs – how can I contact the EDQM?
