Answer:

If you are a manufacturer of blood- and plasma-derived medicinal products or vaccines and are interested in arranging for OCABR in the EU/EEA, you can request a list of potentially suitable OMCLs, which provides an overview of the OMCLs and their competencies, by sending an email to batchrelease@edqm.eu. We strongly recommend contacting the individual OMCLs to receive the most up-to-date information with respect to competence and capacity.
