

# Should all tests referred to in a CEP be performed for routine analysis/batch release?

You are here:

[EDQM FAQs](#) / [EDQM FAQs in English](#) / [CERTIFICATION OF SUBSTANCES FOR PHARMACEUTICAL USE](#) / [General information on Substances for pharmaceutical use](#) / [Application dossier](#) / Should all tests referred to in a CEP be performed for routine analysis/batch release?

## Answer:

It is not necessarily the case that all tests described in a monograph or a CEP must be performed before a product is released. However, CEP applicants and holders are reminded that in the event of doubt or dispute, the requirements of European Pharmacopoeia, chapter 1. *General Notices* (1.1. General Statements), which also apply to any additional test(s) included in a CEP, are alone authoritative.
