

# What is the difference between monographs published in the European Pharmacopoeia (Ph. Eur.), Ph. Eur. supplements and Pharmeuropa?

You are here:

[EDQM FAQs](#) / [EDQM FAQs in English](#) / [PRODUCTS AND SERVICES \(Publications, Reference standards, CombiStats\)](#) / [EDQM publications](#) / [General information on EDQM Publications](#) / What is the difference between monographs published in the European Pharmacopoeia (Ph. Eur.), Ph. Eur. supplements and Pharmeuropa?

## Answer:

The monographs in the Ph. Eur. and Ph. Eur. supplements are the official standards. Supplements are published to revise or add monographs between the editions of the Ph. Eur. The monographs in Pharmeuropa are published for consultation. The same publication principles also apply to Ph. Eur. general texts.
