

# What is the water/solvent content of a Ph. Eur. CRS?

You are here:

[EDQM FAQs](#) / [EDQM FAQs in English](#) / [PRODUCTS AND SERVICES \(Publications, Reference standards, CombiStats\)](#) / [EDQM reference standards](#) / [Establishment of chemical reference standards \(CRS\)](#) / What is the water/solvent content of a Ph. Eur. CRS?

## Answer:

Information on water or solvent content is not required to use a CRS in a test and/or assay of the corresponding Ph. Eur. monograph.

The content assigned to some CRSs can be found in the [leaflet accompanying the CRS](#). Water and/or solvent content are already taken into account in the leaflet.
