

Why do I need to create an account to register for an EDQM event?

You are here:

[EDQM FAQs](#) / [EDQM FAQs in English](#) / [COMMUNICATIONS & EVENTS](#) / [Events](#) / Why do I need to create an account to register for an EDQM event?

Answer:

We ask that you create an account to register for EDQM events because we need some information from you to help with organising the event and to manage your attendance. It also helps the EDQM keep you informed about the event and of any updates (e.g. email confirmations and notifications). You only need to create this account once and you can use it to register for all EDQM events.

Please make sure the email address you enter is correct and valid. Please note that the information you provide will appear on your name badge, the attendance document, the participant list, etc. Please use UPPERCASE letters for your surname/family name (e.g. John SMITH).

The EDQM assumes no responsibility if electronic communications cannot be sent to you due to a faulty email address, if emails from the EDQM are blocked by your service provider or if you are otherwise unable to receive electronic communications.
